

## Athi Para Shakti Eternal Everlasting Energy

Athi Parashakti is the Supreme Being and recognized as Para Brahman. The Devi Bhagwata Mahapurana suggests that Athi Parashakti is the original creator, observer and destroyer of the whole universe. Today's Scientist call her Supreme Intelligence or Sacred Energy, and she is known commonly around the world simply as God. It is she who created everything which exists in the Universe. Hence Athi Parashakti is Param Prakriti. Durga Amman is the original manifested form of Athi-Parashakti. She is Athi- Parashakti herself. Durga or Parvati, the goddess of power and beauty, is considered as her saguna svarupa (human form). That is, Parvati or Durga is the truest material form of the Goddess, possessing the three qualities (Sattva, rajas, or tamas). However, ultimately Athi Parashakti is also considered to be truly supreme spirit without form (Param Atman). She is the Great Goddess, and therefore the source of all other goddesses

Athi Parashakti means "The Eternally Limitless Power". That is, she is the Power beyond this universe. She is the active energy that both creates and dissolves the entire universe. In the Devi Gita, it is suggested that before incarnating as Parvati, she appeared to King Himalaya and revealed divine, eternal knowledge to him. She explained herself, in the words of the Vedas, as having neither beginning nor end. She is the only, eternal truth. The whole universe is her creation and she is the Para Brahman. She is the only victor and the manifestation of victory itself. She is a manifested (Lord Brahma), transcendent (Lord Vishnu) and unmanifested (Lord Shiva) divinity. She then displayed her scarcely seen form to him: Satyaloka was located in her forehead; the created universe were her hairs; the sun and moon were her eyes; in her ears were the four directions; the Vedas were her words; death, affection and emotion were her teeth; maya was manifested by her smile.

Devi ordered and instructed Trimurti as follows:

"I am Athi Parashakti, Bhuvaneshvari Amman. I am the owner of this universe. I am the Absolute Reality. I am dynamic in feminine form and static in masculine form. You have appeared to govern the universe through my energy. You are the masculine form of Absolute Reality, while I am the feminine form of that Reality. I am beyond form, beyond everything, and all the powers of God are contained within me. You will admit that I am the Eternally Limitless Power."

She then said: Brahma! You will be generator of the universe; the Sharada is your Shakti, my form by which I will be recognized as the goddess of wisdom and the primeval sound. Lord Brahma, this goddess will be with you when you create the universe.

She continued: Lord of Lords, Narayana! You are the Supreme, Immortal Spirit. You are formless, yet you take form. I assign you to be the preserver of the universe. You will take a different incarnations in order to save this universe's inhabitants. Oh Narayana! You are the Supreme of all the deities with form. You have created Lord Brahma, and Brahma will further create three hundred thirty million other gods and goddesses. You are the Paramatman. Your consort will be goddess Shri, who is none other than the incarnation of my light, as without light, one can neither see nor be seen. When life evolves, you will take the form of Vishnu, the one who will perform the task of observing and preserving this universe.

At Last she instructed: Oh Lord Rudra, the Greatest God, you are the personification of time, which is above all. You will perform the task of destroying and regenerating this universe. When you are formless, time stands still. It is due to my power that you become dynamic and are capable of bringing about the destruction and regeneration of this universe. Your consort is goddess Parvathi.

The concept of Athi shakti is very much similar to the modern discoveries in the field of Modern science and technology. Energy is basic entity that is base of all, as of Energy doesn't require a base. This is what when energy exist even after destruction of Universe. Science named it, the Dark Energy responsible for destruction and Vacuum Energy which creates universe. An energy that exist even after destruction and before creation is called Zero Energy or Sacred Energy or Supreme Intelligence.

All are claiming and repeating one name directly or indirectly i.e. Shakti or Energy. Who is actually omnipresent in all beings. Shakti is there in Highest "Vishnu" to lowest "Insect". We Worship because of energy, we walk because of shakti, we do all the activities because of shakti. So How can "Creation/Preservation/Destruction" be done without shakti. Shakti is required to get a soul into a body, Shakti is required to sustain soul to live, Shakti is required to destroy/release from a Body.

Athi Shakti is regarded as the one who can control all the nine planets. She divides herself to Material Shakti i.e. Durga who splits herself to operate nine planets to maintain cosmic order, She is the one who splits herself to NavaDurga provides direction and energy to all planets.

- Sun is Governed by Kushmanda Shakti.
- Mahagauri operates Rahu.
- Kaalratri governs Shani.
- Ketu is governed by Goddess Sidhidhaatri.
- Provider of Knowledge i.e. Bhrasapati is governed by Goddess Katyayini
- Provider of All Fortunes i.e. Mangal is governed by Goddess Brahmacharini
- The effect of moon is overcome by Goddess Shailputri
- Budh Planet is governed by Goddess Skandmata
- Shukra Planet is operated by Goddess Chandraghanta

By this contrast Goddess Athi Shakti controls Nava Graha. Worshipping the nine goddess in Navaratri or Nine nights of Durga Amman, saves you from dangerous effects of planets.

Worship of the Universal Mother Shakthi gives you not only grace of prosperity in this natural world, but also grace for spiritual liberation from all bondage which leads to knowledge of the self and thus the knowledge of the God within us. Adhi Para-Shakthi is all and everything and has complete dominion
